FX Palo Alto Laboratory

3400 Hillview Ave Bldg 4 - Palo Alto CA 94304 - 650.813.7765 FAX 650.813.7081

Incorporated in 1995, FX Palo Alto Laboratory (FXPAL) is an expanding laboratory researching software and information technology for Fuji-Xerox Co., Ltd. Fuji-Xerox serves as the hub for the Xerox Group's operations in the fast-growing Asian and Southern Pacific regions. Located in Silicon Valley on the Xerox Palo Alto campus, FXPAL is the newest member of the Xerox global research community.

### FXPAL's Mission

FXPAL plans to shape the "office of the future" and the "document of the future" and provide Fuji Xerox a digital information technology base for the 21st century. This goal is accomplished through:

- Research in core software technologies
- Work with selected universities to develop and transition information technologies
- Interaction with the US software industry to help tailor new products for FX systems and applications
